Below is a testimonial from a very satisfied Indiana Director of Business & Transportation.

I was introduced to ESA, Educational Shippers Association, at the beginning of 2010. At first I was not sure how we would benefit from the services that they offered. We decided to try them when we ordered our text books to see how much we would save on orders that usually have high shipping cost. We just placed our first text book order and was able to save over \$3,000 on a \$38,359 order. ESA has been very helpful in setting up the accounts to take advantage of the reduced shipping cost. We are planning to expand using ESA for our shipping needs.
